## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 23 and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Mason (U.S. Patent 4,165,130).

The Mason '130 patent discloses a drill barrel having proximal and distal ends for excavating a shaft in hard rock. The drill barrel comprises a barrel portion (16) that is substantially hollow and substantially open at its proximal end (see Fig. 1). A downhole hammer drill (52) is disposed substantially within the barrel portion near the barrel portion's periphery. The drill barrel has a diameter of at least about 36 inches (col. 4, line 6).

### ***Allowable Subject Matter***

3. Claim 24 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 1-22, 26-41 are allowed.

### ***Response to Arguments***

5. Applicant's arguments filed 6/6/03 have been fully considered but they are not persuasive.

The proximal end of the barrel portion of the Mason '130 patent is as much substantially open as Applicant's barrel. For example, Applicant's Fig. 4, where over half the proximal end is covered, is substantially open. See also page 14, lines 8-14, of the instant specification.

Accordingly, in the absence of any limitation defining "substantially open", and in view of Applicant's showing of what is meant by "substantially open" in Fig. 4, the Mason '130 patent is deemed to meet the claimed limitations.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
